DEPARTMENT OF AGRICULTURE, BENGAL.

Preliminary Forecast of the Bhadoi Crops of Bengal, 1921-22.

(NOTE.—On an average of the five years ending 1919-20, the area under autumn rice in Bengal has represented some 6.3 per cent. of the total area under rice in British India.)

Character of the season.—At the beginning of the season the weather was generally favourable for the preparation of the land. In the first half of March, however, wet weather somewhat interfered with the sowings of the crops in the eastern and northern districts, but the dry weather which followed until the first week of April enabled a larger area to be brought under cultivation in those districts. In the western districts, on the other hand, insufficient rain in March and in the middle of April generally hampered the sowing operations, with the result that the area under cultivation has been reduced. The rainfall in May and June was below the normal

throughout the Presidency, and the growth of the crops was affected especially in the western districts. The early rise of rivers in June and excessive rain and floods in July considerably damaged the crops in the low-lying tracts of North and East Bengal. But for the damage caused by floods the outturn of autumn rice would have been a highly satisfactory one.

Acreage.—The total area sown with the different *bhadoi* crops this year is reported to be 6,393,500 acres as against 5,922,000 acres and 5,939,400 acres (revised), respectively, in the corresponding and final forecasts of last year. Of this, the area under autumn rice is estimated at 5,542,200 acres this year as against 5,088,200 and 5,113,600 acres (revised) in the corresponding and final forecasts of last year.

The increase in area is attributed mainly to decreased cultivation of jute and to the high price of food-stuffs.

Outturn.—According to the district officers' estimates, the outturn of the different *bhadoi* crops for the province works out to 81 per cent. of the normal against 84 and 86 per cent. reported, respectively, in the corresponding and final forecasts of last year. Autumn rice, the most important of the *bhadoi* crops, shows an outturn of 81 per cent. of the normal for the province this year against 85 and 86 per cent. in the corresponding and final forecasts of last year.

G. EVANS,

Director of Agriculture, Bengal.

Dacca;

The 28th September 1921.

APPENDIX.

Preliminary Forecast of the *Bhadra* Crops of Bengal, 1921-22.

District.	Names of crops.	Estimated normal area under each crop.	Estimated area under each crop.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the sowing of each crop was begun this year, and whether that date was early, normal or late.	Remarks by District Officers.
			Last year.	This year.	Last year.	This year.		
24-PARGANAS.	<i>Bhadra</i> paddy (autumn rice).	73,400	61,900	60,000	100	83	April to June. Late	The decrease in area was due to want of rain at sowing time. The weather has not been favourable. The outturn is below the normal owing to damage caused by drought in Basirhat and by insects in parts of Haridaspore subdivision.
	Indian-corn (maize)	100	100	83	75		
	Other <i>Bhadra</i> cereals ...	2,400	1,700	1,400	75	75		
	Other <i>Bhadra</i> pulses ...	1,200	8,000	2,900	75	75		
	<i>Bhadra</i> fruits and vegetables, including root-crops.	5,800	3,900	1,400	66	60		
	Other <i>Bhadra</i> food-crops.	100	1,000	800	60	60		
	<i>Bhadra</i> non-food crops other than fodder and fibres.		
	Total ...	84,000	73,300	66,500	96	83		
NADIA.	<i>Bhadra</i> paddy (autumn rice).	491,100	491,400	467,800	99	67	Middle of April. Almost normal.	The decrease in area is due to want of timely rain at the sowing season. Unequal distribution of rainfall has retarded the growth of the crops and has affected the outturn which is expected to fall below the normal. The rainfall conditions have been favourable now, but it is too late for the <i>Bhadra</i> crops.
	Bajra	100	...	67		
	Mandua, marua or ragi ...	100	200	200	67	66		
	Indian-corn (maize) ...	800	100	100	67	66		
	Other <i>Bhadra</i> cereals ...	8,000	4,800	3,500	75	60		
	Other <i>Bhadra</i> pulses ...	1,000	6,400	7,800	67	25		
	<i>Bhadra</i> fruits and vegetables, including root-crops.	4,400	3,300	1,700	67	66		
	Other <i>Bhadra</i> food-crops	3,800	7,300	2,800	75	60		
	<i>Bhadra</i> fodder crops other than jowar, bajra, marua and maize.	1,800	4,800	4,800	67	60		
	<i>Bhadra</i> fibres other than jute.	...	100	700	67	66		
	Mulberry ...	(50)		
	<i>Bhadra</i> non-food crops other than fodder and fibres.	8,900	12,800	14,300	67	66		
	Total ...	523,900	525,100	504,900	91	66		
MURSHIDABAD.	<i>Bhadra</i> paddy (autumn rice).	229,700	193,800	135,900	83	67		The decrease in area is due to scanty rainfall at sowing time and also to the fact that floods for the tanks of Jellingi and Hariharpara have not yet been received. The weather was unfavourable at the beginning, but subsequently turned favourable. The outturn is below the normal owing to serious damage done by insects in the Lalbagh subdivision. Slight damage was also done by flood in the Jangipur subdivision.

	Total	343,500	375,200	392,700	71	73		
	Shaded paddy (autumn rice).	225,700	255,500	260,500	73	69		
	Shaded fruits and vegetables including root-crops.	5,000	6,100	4,000	80	80		
	Other shaded food-crops	20,300	10,000	12,200	68	60		
	Shaded fodder crops other than jowar, bajra, munga and maize.	2,700	1,800	1,800	70	70		
	Total	275,800	305,200	325,500	64	69		The increase in area is due to decrease in cultivation. The weather has been favourable and the growth of the crops good, though damage has been caused in low lands by ear flood.

District.	Name of crops.	Estimated normal area under each crop.	Estimated area under each crop.		Estimated output, as a percentage of the normal yield per unit of area.		Date by which the sowing of each crop was begun this year, and whether that date was early, normal or late.	Remarks by District Officers.
			Last year.	This year.	Last year.	This year.		
MYNENGLUR.	Shaded paddy (autumn rice).	390,900	478,000	745,000	81	75	Middle of April. Normal.	The increase in area is due to increased price of paddy and to low price of jute and also to adoption of settlement figures for Kishoreganj, Naratkona and Jamalpur subdivisions. The weather was favourable at sowing time, but subsequently it was not so for want of rains. Damage by flood to the extent of about 2 per cent. is reported from Kishoreganj and Naratkona subdivisions and of 5 per cent. from Tangail subdivision.
	Shaded fruits and vegetables, including root-crops.	5,500	5,500	14,000	35	40		
	Other shaded food-crops	43,000	43,000	43,000	68	73		
	Shaded fodder crops other than jowar, bajra, marna and maize.	64,000	64,000	64,000	60	60		
	Total ...	503,400	590,500	866,000	78	74		
FARIDPUR.	Shaded paddy (autumn rice).	223,500	224,900	240,800	90	61	End of March. Normal.	The increase in area under shaded paddy is due to decrease in jute cultivation and the decrease under shaded fruits and vegetables, etc., was due to insufficient rain at sowing time. The weather was favourable at sowing time, but sudden rise of water has damaged about 12 annas of the crops in the Gostundo subdivision. Elsewhere the crops have also been damaged to some extent. Hence the output is much below the normal.
	Shaded fruits and vegetables, including root-crops.	22,500	22,500	19,900	75	62		
	Other shaded food-crops	500	600	800	76	50		
	Total ...	246,500	248,000	261,500	79	62		
BAKARGANJ.	Shaded paddy (autumn rice).	194,000	310,000	318,000	108	97	April and first part of May. Normal.	The increase in area is due to high price of foodstuffs and to low price of jute. The weather was favourable at sowing time and during the period of growth, but the flood and high wind in the latter part of July have done some damage to the crops. The output would have been far above the normal but for the damage caused by floods.
	Other shaded pulses ...	1,000	500	600	100	83		
	Shaded fruits and vegetables, including root-crops.	140,000	145,000	150,000	100	100		
	Shaded non-food crops other than fodder and fibres.	1,400	1,800	1,600	74	43		
	Total ...	336,400	457,300	470,200	104	94		
CHITTAGONG.	Shaded paddy (autumn rice).	202,000	194,500	194,000	93	93		The rain was late at the time of sowing. The output is below the normal for want of adequate and timely rain.
	Indian-corn (maize) ...	300	300	300	100	43		
	Other shaded pulses ...	300	300	300	100	93		
	Shaded fruits and vegetables, including root-crops.	8,400	2,300	2,500	100	97		
	Other shaded food-crops	1,500	1,400	1,600	100	100		
	Shaded fodder crops other than jowar, bajra, marna and maize.	5,800	4,100	4,000	60	100		
	Shaded fibres other than jute.	300	300	300	100	100		
	Tan ...	5,000	5,400	5,400	62	83		
	Shaded non-food crops other than fodder and fibres.	100	100	100	100	100		
	Total ...	218,900	208,000	208,200	92	93		
TIPPERA.	Shaded paddy (autumn rice).	212,800	215,500	215,100	73	93	April. Normal	The increase in area is due to decreased cultivation of jute. The weather was favourable at sowing time, but has subsequently been unfavourable owing to flood which has caused damage to the extent of about two annas.
	Other shaded cereals ...	600	500	500	73	93		
	Other shaded pulses ...	1,100	1,100	1,100	67	67		
	Shaded fruits and vegetables, including root-crops.	7,300	4,300	4,000	67	73

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Winter Rice Crop of Bengal, 1921-22.

[NOTE.—On an average of the five years ending 1919-20, the area under Winter Rice in Bengal has represented some 19·7 per cent. of the total area under rice in British India.]

Character of the season.—Pre-monsoon showers were generally sufficient for the preparatory tillage. Rainfall in May and June, though below the normal, however, allowed sufficient moisture to be retained in the soil. Consequently the sowings of broadcast paddy which commenced at the usual time finished favourably especially in the eastern and northern districts. A full area was, therefore, sown with this variety. During the early period of the monsoon, drought prevailed in the western districts and paddy seedlings suffered in the high land tracts. As a result also transplantation in those tracts proceeded slowly during July, but good rainfall in the end of August facilitated operations a good deal. In the eastern and northern districts, on the other hand, abundant rainfall during these two months enabled a large area to be brought under cultivation. Some damage to broadcast paddy was caused by excessive rain and the sudden rise of rivers in certain low land tracts of North and East Bengal. The present outlook is, so far, satisfactory, on the whole.

Acresage.—According to the figures returned by district officers the total area under the winter rice crop is 15,187,000 acres, as compared with 15,319,500 and 15,313,800 acres in the corresponding and final forecasts of last year. The decrease is to be attributed chiefly to want of rain at sowing time in the western districts.

Outturn.—From the summary of the district returns appended it will be seen that six districts expect a normal crop, seventeen districts report a crop between 73 and 99 and the remaining four districts return between 58 and 70 per cent. of the normal. According to the above estimates, the provincial outturn works out to 88 per cent. as against 83 and 87 per cent. of the normal respectively in the first and final forecasts of last year.

G. EVANS,

Director of Agriculture, Bengal.

DACCA,

The 28th September 1921.

APPENDIX I.

First Forecast of the Winter Rice Crop of Bengal, 1921-22.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the sowing of broadcast winter rice commenced this year, and whether that date was early normal or late.	Date by which the transplanting of winter rice commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
		Last year (1920-21).	This year (1921-22).	Last year.	This year.			
	Acres.	Acres.	Acres.					
24-Parganas	1,011,800	818,900	796,700	83	82	May; normal	July; normal	The decrease in area is due to want of timely rain and to acquisition of large areas for mils and brickfields. The weather was not favourable at sowing time, but has since been favourable.
Medinipur	128,800	100,900	210,800	62	80	Middle of April; normal.	Middle of June; normal.	The increase in area is due to revision of estimates based on settlement records for several thanas. As insufficiency and unequal distribution of rainfall have been felt all through, the outturn is expected to fall much below the normal. The outturn may yet improve with favourable season.
Murshidabad	351,400	286,800	290,800	67	82	Jan-	Beginning of August (generally late) except in Lalbagh subdivision where the transplanting commenced from the beginning of July (early).	The decrease in area is due to want of timely rainfall. The weather was unfavourable at sowing time, but has subsequently been favourable. The outturn is below the normal owing to late transplanting.
Dumraon	848,100	680,100	662,800	78	83	April and May; normal.	June and July; normal.	The increase in area is due to decreased cultivation of jute and to high price of paddy. The weather has been favourable for the broadcast but unfavourable in some places for the transplanted crops. It is on the whole favourable. About 20 per cent. of the crop has been damaged by flood in the Narail and about 25 per cent. by insect-pests and want of timely rain in the Magura and Jhenidah subdivisions.
Khulna	736,900	710,800	682,400	92	100	June; normal	Middle of July; normal.	The decrease in area is due to want of timely rain. The weather was not favourable up to the end of July, but sufficient rain in August has improved the condition of the crop. The over-draw of saline water has damaged to some extent the seedlings and plants in Pathgachha, Asansol and Kaliganga police-stations. The outturn is still expected to be normal.
Bardham	674,800	677,700	662,700	88	75	End of June; normal.	End of July; late.	The decrease in area is due to want of timely rain. The weather was not favourable at sowing time, but has since been favourable. The outturn is expected to fall below the normal owing to late rainfall.
Northam	606,800	642,000	620,800	67	100	June; normal	Ditto	The decrease in area is due to want of timely rain. The weather has been favourable.
Bankura	610,400	326,000	644,800	69	92	Ditto	The increase in area is due to revision of estimates based on settlement records. The weather has been fairly favourable. The transplantation is late owing to late monsoon.
Midnapore	1,037,100	1,617,400	1,206,800	100	100	End of June; late	Ditto	The decrease in area is due to insufficient rainfall at sowing time. The weather was not favourable at sowing time owing to drought, but sufficient rainfall since the end of July has helped the growth of the crop. The outturn is expected to be normal if the October rainfall be sufficient.
Hooghly	276,700	208,300	197,800	100	75	End of July; late	August (late) in Badar and Arambagh and end of July (late) in Arambagh subdivisions.	The decrease in area is due to increased cultivation of sugarcane and also to want of rain at sowing time. The weather was unfavourable at sowing time, but has since been favourable. The outturn is expected to fall below the normal owing to belated transplantation for unfavourable condition of weather and want of timely rain, which has caused damage to the extent of about 6 annas in the Arambagh subdivision.
Howrah	154,200	119,700	122,400	100	100	Beginning of June; late.	Middle of July; late.	The increase in area is due to decreased cultivation of jute. The weather has on whole been favourable though it was not so at the sowing time for want of rain.
Eschaki	822,700	63,000	666,800	70	81	April; normal	Later part of July; normal.	The increase in area is due to extensive cultivation of paddy owing to fall in price of jute. The weather has been fairly favourable. The damage to some extent is reported from Nator subdivision.
Dinajpur	1,120,800	618,400	908,800	80	75	Middle of May; normal.	Middle of June; normal.	The increase in area is due to timely rain and to failure of the crop last year. The weather has been fairly satisfactory.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the sowing of broadcasted winter rice commenced this year, and whether that date was early, normal or late.	Date by which the transplanting of winter rice commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
		Last year (1920-21).	This year (1921-22)	Last year.	This year.			
	Acres.	Acres.	Acres.					
Jalpaiguri ...	467,400	434,000	363,400	83	93	July; normal	Transplantation is still going on. It was retarded to some extent owing to excessive heavy rain and flood in July. Subsequent weather has been fair. The outturn is expected to fall below the normal owing to damage by flood to lowland crop.
Darjeeling ...	65,200	33,800	34,400	92	83	April; nor	1st week of July	The decrease in area is due to excessive rain. The weather has not been favourable owing to incessant heavy rainfall, which has caused some damage.
Rangpur ...	727,800	681,400	606,900	81.4	92	Middle of May; normal.	Beginning of July; normal.	The increase in area is due to copious rainfall during the time of transplantation. The weather has been fairly favourable. Some damage has been caused to the crop on <i>cher lands</i> . Want of rain throughout the month of August has caused the outturn to fall below the normal.
Bogra ...	303,000	443,000	448,000	80	70	March; normal	July; normal	The increase in area is due to decreased cultivation of jute. The outturn is anticipated to be low owing to want of sufficient rain at the time of transplantation and thereafter. The recent rains have slightly improved the prospects.
Patna ...	364,000	401,600	400,000	83	67	By the middle of April; normal.	By the beginning of September; normal.	Slight decrease in area was due to unfavourable weather at sowing time in the <i>baranjanj</i> subdivision. The weather was not favourable at sowing time and during the period of growth owing to drought and sudden and untimely rise of the river Jamuna which is likely to reduce the outturn.
Malda ...	236,300	243,400	306,300	84	61	Middle of July; late.	Beginning of August; late.	The decrease in area was due to want of rainfall at sowing time. Unfavourable weather from sowing time till the middle of August retarded the growth of the crop. Subsequently the weather has been favourable. The outturn is expected to be much below the normal owing to considerable damage done by sudden flood and want of timely rainfall.
Dacca ...	647,800	643,800	704,800	110	89	End of March to April.	Late in July; normal.	The increase in area is due to decrease in jute cultivation and to high price of paddy. The weather has been favourable. Slight damage has been done by sudden and early flood to lowland crop.
Mymensingh ...	1,433,500	818,700	1,183,800	80	78	April to June; normal.	July and August; normal.	The increase in area is due to adoption of settlement figures. The weather has been generally fair. Incessant rain at sowing time caused damage to the extent of 3 per cent. In Tangail the damage by flood is about 12 per cent. and in Kishanganj about a fifth of the crops. The outturn is expected to be below the normal owing to sudden rise of water.
Faridpur ...	770,100	743,300	780,800	100	80	March and April; normal.	The increase in area is due to decrease in area under jute. The weather has not been favourable for the growth of the crop in the <i>brahman</i> subdivision. Some damage has been done by the sudden rise of water. Hence the outturn is below the normal.
Beharaguri ...	1,300,000	1,316,100	1,100,000	100	100	April and May; normal.	Middle of August; late.	The weather was not favourable at the beginning for want of sufficient rain. Subsequently the flood at the end of June has damaged about four annas of the seedlings. The broadcast paddy, too, is slightly damaged. The present weather is fair and the growth of the crop is fairly good.
Chittagong ...	618,400	631,300	631,800	100	90	May to July; normal.	July and August; normal.	The weather has been reasonable and the growth of the crop fair.
Tippah ...	763,000	767,000	766,400	83	83	April; normal	August; normal	The increase in area is due to decreased cultivation of jute. The weather has been favourable. Slight damage has been done by flood and insect-pests, which has reduced the outturn.
Noakhali ...	703,000	634,000	630,000	100	100	Ditto	July and August; normal.	The weather has been favourable and a normal outturn is expected.
Chittagong Hill Tracts.	47,800	46,000	46,900	73	73	Third week of June; normal.	Third week of July; normal.	The weather has been fairly favourable. The outturn is expected to be equal to that of previous years.
Total Bengal ...	17,377,400	16,543,000	15,197,000	89.7	88

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Sugarcane crop of Bengal, 1921-22.

[NOTE.—On an average of the five years ending 1919-20, the area under sugarcane in Bengal has represented some 8·4 per cent. of the total area under sugarcane in British India.]

Character of the season.—At the time of planting, the weather was unfavourable in the deltaic tracts owing to absence of rain, while elsewhere timely rainfall facilitated the operation. Insufficient rainfall in May and June considerably affected the growth in the Western districts, but the crop was not much affected in the rest of the Presidency. Subsequent favourable weather has, however, improved the situation. Damage by drought is reported from Murshidabad, Burdwan, Midnapore and Hooghly, and by heavy rain and flood from Jalpaiguri, Pabna, Faridpur and Bakarganj. Injury by insect-pests is reported from parts of Chittagong and Faridpur only. On the whole, the crop is expected to be fairly satisfactory.

Acreage.—The total area planted with sugarcane for the province this year is reported to be 220,600 acres against 219,500 acres and 218,800 acres reported respectively in the corresponding and final forecasts of last year.

Outturn.—According to estimates of District Officers, the provincial outturn works out to 83 per cent. of the normal this year against 90 and 88 per cent, respectively in the corresponding and final forecasts of last year.

G. EVANS,

Director of Agriculture, Bengal

Dacca,

The 29th September 1921.

APPENDIX.

Second forecast of the sugarcane crop of Bengal, 1921-22.

District.	Estimated normal area under sugarcane.	Estimated area under sugarcane.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the planting of sets generally commenced this year, and whether this date was early, normal or late.	Remarks by District Officers.
		Last year.	This year.	Last year.	This year.		
1	2	3	4	5	6	7	8
	Acres.	Acres.	Acres.				
24 Parganas	8,000	4,700	4,000	59	75	April. Normal	The weather has been fairly favourable.
Nadia	7,000	6,700	6,000	87	75	Middle of January. Normal.	Insufficient rainfall at the beginning has retarded the growth of the plants and the outturn is expected to be much below the normal.
Morebhabad	3,600	2,900	2,200	75	63	November to May. Normal.	The weather was wholly unfavourable at the planting time but has since been favourable.
Jessore	2,930	2,900	4,000	83	61	February and March. Normal.	The weather was favourable at the beginning but subsequently the growth was much retarded by the incessant rain in July and August.
Khulna	1,800	1,700	1,100	68	59	February. Normal	The weather has been favourable.
Burdwan	25,000	16,800	16,500	67	67	Middle of March to end of May. Normal.	The weather was unfavourable at the planting time but has since been favourable.
Birbhum	9,400	9,000	9,000	75	63	May. Normal	The weather has been favourable on the whole.
Bankura	15,000	11,000	9,700	75	59	End of May. Late	Planting was delayed owing to late rainfall. On the whole the weather has been fair.
Midnapore	4,800	4,400	6,000	75	75	April. Normal	The decrease in area is due to drought after the planting of sets. The weather was unfavourable at the time of planting. The plants in some places withered owing to unusual drought but the weather has been favourable at present.
Hooghly	1,250	4,920	6,500	75	60	Badar—Beginning of April. Berampore and Arambagh Sub-divisions March. Normal.	The decrease in area as compared with last year is due to conversion of lands into brick-field in the Berampore subdivision and to excessive drought for which a portion of the crop in the Badar subdivision withered away. The weather was unfavourable at the time of planting on account of drought but it has since been favourable.
Mooreb	3,400	5,000	4,900	63	61	January to March. Normal.	The weather was unfavourable at planting time owing to insufficient rainfall. Subsequently the weather has been favourable. Some plants withered on account of drought. The surviving plants are growing luxuriantly owing to present good weather.
Rajshahi	7,200	6,800	7,600	63	61	End of January. Normal.	The increase in area as compared with last year is due to fall in the present rate and rise in the price of seed. The weather has been favourable on the whole.
Dinajpur	25,000	21,000	23,800	83.5	60	January. Normal	The weather has been favourable on the whole.

District.	Estimated normal area under sugarcane.	Estimated area under sugarcane.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the planting of cane generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
		Last year.	This year.	Last year.	This year.		
1	2	3	4	5	6	7	8
	Acres.	Acres.	Acres.				
Jalpaiguri	6,000	4,700	5,100	93	85	February. Normal ...	Increase in area is due to high price of cane. The weather was favourable at the planting time, but subsequently it has not been so owing to heavy rainfall.
Darjeeling	300	300*	300*	100	83	... Ditto ...	The weather has been fair.
Rangpur	20,500	14,100	14,200	100	100	Middle of February. Normal.	The weather has been favourable.
Bogra	8,000	4,500	4,000	98	72	March. Normal ...	Ditto.
Fabna	10,000	4,900	5,800	67	69	Middle of April. Normal.	The weather was favourable at the time of planting, but subsequently flood has done great damage to the growth of the crop.
Malda	300	300*	300*	80	80	First part of May. Late.	The weather was not favourable for want of rain at the time of planting, but the condition has improved owing to recent rains.
Dacca	21,100	24,100	24,400	99	100	February to May. Normal.	Increase in area is due to high price of sugar. The weather was favourable at the time of planting and its effects on the growth of the crop have been favourable.
Mymensingh	11,100	10,800	7,000	90	75	Generally in March (normal) excepting in Jamalpur where it commenced in May.	The decrease in area is due to bad weather condition at planting time. The weather, on the whole, has been unfavourable.
Faridpur	7,100	7,400	5,900	80	80	January. Normal ...	The decrease in area is due to increase in area under other crops. The weather was not favourable but the crop has been damaged by Bonga insect pest, heavy rains and high water.
Bakerganj	10,800	35,000	20,000	100	83	January and February. Normal.	The weather was favourable all through but the flood and high wind in the latter part of July have done a great damage to the crop. The plants have turned yellow and as their lower parts are rotting, the harvesting is proceeding rapidly which is rather early this year.
Chittagong	6,400	6,400	6,800	93	79	February and March. Normal.	The weather has been fairly favourable. As some damage has been done by insect pests in the Cox's Bazar subdivision, the outturn is likely to be below the normal.
Tippura	6,100	6,000	6,200	83	100	March. Normal ...	The weather has been favourable since the planting time except in the Brahmanbaria subdivision.
Noakhali	800*	800*	800*	75	100	Ditto ...	The weather has been favourable and the condition of the crop is good.
Chittagong Tract ...	1,000	1,000*	1,000*	100	35	2nd week of March. Early.	The weather has been fair.
Total for Bengal ...	244,700	214,000	226,000	90	85		

* Conventional area.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Cotton Crops of Bengal, 1921-22.

[NOTE.—On an average of the five years ending 1919-20, the area under the cotton crops in Bengal has represented some 0·3 per cent. of the total area under cotton in India.]

THERE are two crops—early and late. The “early” crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The “late” crop is grown in Bankura, Midnapore and Mymensingh.

Character of the season.—The early crop, though it suffered in the early stages through absence of rain, has subsequently recovered, and its present condition is reported to be fairly good.

The outlook of the late crop, so far, is reported as generally promising.

Area sown.—The area sown with early cotton is reported to be 63,374 acres this year against 68,448 acres reported in the corresponding forecast of last year.

Of the late crop 1,110 acres are reported to have been sown up to date against 307 acres reported in the corresponding forecast of last year.

G. EVANS,

Director of Agriculture, Bengal.

DACCA,

The 29th September 1921.

**RESOLUTION ON THE FIFTEENTH ANNUAL REPORT OF THE
BENGAL SMOKE-NUISANCES COMMISSION FOR THE
PERIOD FROM APRIL TO DECEMBER 1920.**

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 4TH OCTOBER 1921.

RESOLUTION—No. 3352Mne.

READ—

The fifteenth Annual Report of the Bengal Smoke-nuisances Commission for the period from April to December 1920.

The annual report of the Bengal Smoke-nuisances Commission used formerly to be for the official year. It was recently decided that the report should be for the calendar year. The present annual report therefore relates to the period from April to December 1920.

2. The Commission held nine meetings during the nine months under review for the transaction of their business.

3. The number of observations of smoke emission taken was 7,514 as against 9,943, and the number of factories visited for instruction, etc., was 1,995 against 3,288 during the year 1919-20.

4. The average emission of the smoke of the controlled grades expressed in terms of scale 6 has been reduced to 1.22 minutes in the hour from 1.23 minutes in the previous year. This is the lowest average on record. The Commission's efforts to reduce offensive smoke from oil-burning steamers during their stay in the Port continued to produce good results. At the instance of the Commission certain improved arrangements were adopted on some of these vessels resulting in the material reduction of smoke as well as in the saving of fuel.

Owing to the high price of coal, there was a recrudescence of the wasteful practice of making coke from raw coal in open heaps on the ground. The smoke thus created being emitted in great quantities at ground level causes great damage to health and property in the surrounding localities. The Commission propose to deal with this evil in collaboration with the Commissioner of Police, Calcutta, and the owners of the grounds utilised for the purpose.

5. Plans of 56 installations were examined and passed during the period as compared with 54 in the previous year.

6. The number of complaints received from the general public was 48 against 58 in 1919-20. The Commission also dealt with many references from municipalities regarding chimneys, furnaces, etc. Offences were reported to owners of furnaces for departmental action in 707 cases with satisfactory results.

7. Statutory warnings were served in 15 cases, against 16 in the previous year. Only one prosecution was instituted as against 11 in 1919-20. This is the first time since the Bengal Smoke-nuisances Act, 1905, came into force that there was no prosecution of a factory. This result was achieved through the co-operation of the owners, the introduction of better installations and the general improvements in the system of working the furnaces.

8. The increase in the number of electric motors installed during the period under review is remarkable, being 318 against 168 in the previous year. A large number of gas appliances was also installed with a resulting diminution in the amount of smoke emitted.

9. The report shows that the Commission are making steady and satisfactory progress in the reduction of smoke-nuisances, which is a matter of great importance to public health. It is gratifying to note that the activities of the Commission generally met with the co-operation and appreciation of the

public. The Governor in Council desires to thank the members of the Commission as well as Mr. Robson, the Chief Inspector, and his assistant for their successful administration of the department.

ORDER.—Ordered that a copy of the resolution be forwarded to the Government of India, Department of Commerce; the Director of Industries, Bengal; the Commissioners of the Presidency and Burdwan Divisions; the Commissioner of Police, Calcutta; the Chairman, Corporation of Calcutta; the Chairman of the Commissioners for the Port of Calcutta; the Secretary, Bengal Chamber of Commerce; Master, Calcutta Trades Association; the Honorary Secretary, Bengal National Chamber of Commerce; the Chairman of the City Improvement Trust, Calcutta; and the Municipal Department of this Government.

Ordered, also, that the resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

A. MARR,

Secretary to the Government of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 26th September 1921.

Summary.—During the week, moderate to heavy rain fell in the eastern districts; elsewhere the fall was generally light to moderate. Harvesting of autumn paddy is completed. Steeping and washing of jute are still continuing in places. Transplantation of winter paddy is over; weeding is in progress. Preparation of lands for *rabi* crops and sowing of pulses and *kalai* have commenced on high lands in parts of certain western districts. The average price of common rice for the province has fallen by about 1·34 per cent. as compared with that of the previous week.

DACCA,
The 28th September 1921.

BENODE BEHARI ROY,
for Executive Engineer, Dacca Division.

The Board of Trustees for the Improvement of Calcutta.

Notice under section 43 of Bengal Act V of 1911.

Scheme No. VIIIB (Extension of the present proposed Park in Scheme VIII) and construction of a 100 ft. road to the north of the Park joining the Circus with Darga Road.

THE Board of Trustees for the Improvement of Calcutta hereby give notice that a Street Scheme, namely, Scheme No. VIIIB (Extension of the present proposed Park in Scheme VIII and construction of a 100 ft. road to the north of the park joining the Circus with Darga Road) has been framed for the area bounded as follows :—

On the North—From a point on the north-east corner of the Darga at premises No. 15, Gora Chand Road, running eastwards along the southern edge of Gora Chand Road, to the north-west corner of premises No. 22, Gora Chand Road.

On the East—From this point southwards along the western boundaries of premises No. 22, Gora Chand Road, and premises Nos. 74, 73 and 72, Tiljala Road, and then to a point on the northern boundary of premises No. 21-1, Darga Road, about 85 ft. west from its north-east corner.

On the South—From this point westwards along the southern boundary of premises No. 22, Darga Road, to a point on the eastern edge of Darga Road. From this point north-westwards along the eastern edge of Darga Road to a point opposite Kasaipara Lane. Thence running westwards across Darga Road and along the northern edge of Kasaipara Lane to the south-eastern corner of premises No. 8, Kasaipara Lane.

On the West—From this point northwards along the eastern boundary of No. 8, Kasaipara Lane, and thence westwards along a portion of its northern boundary to a point on the south-west corner of premises No. 5-2, Gora Chand Lane. Thence along the southern and eastern boundaries of the same premises to a point on its north-east corner. From this point northwards along the western edge of Gora Chand Lane to a point on it about 38 ft. north from the south-east corner of premises No. 19, Gora Chand Lane. Thence eastwards across Gora Chand Lane and along the southern boundary of premises No. 7-1, Gora Chand Lane, and southern and eastern boundaries of premises No. 10, Gora Chand Lane, to its north-east corner. From this point across and along the portion of a drain to a point on the south-east corner of premises No. 16, Gora Chand Road. Thence running northwards along the eastern boundaries of premises Nos. 16, 14, 15, Gora Chand Road, to the starting point.

Particulars of the Scheme, a map of the area comprised in the Scheme and a statement of the land which it is proposed to acquire may be inspected at the office of the Trust, 5, Clive Street, on week days between the hours of 11 A.M. and 4 P.M., and on Saturdays between 11 A.M. and 2 P.M.

Copies of the above documents will be delivered to the applicants on payment of the following fees :—

	Rs.	A.
Particulars of the Scheme	0	4
Map of the area of the Scheme	1	0
Statement of the land which it is proposed to acquire	0	4

Objections to the Scheme will be received up to the 15th of January 1922.

C. H. BOMPAS, *Chairman.*

CALCUTTA, the 21st September 1921.

The Board of Trustees for the Improvement of Calcutta.

Notice under section 42 of Bengal Act V of 1911.

Scheme No. XX (Dharumtala Street to Corporation Street).

THE Board of Trustees for the Improvement of Calcutta hereby give notice that Street Scheme, viz., Scheme No. XX (Dharumtala Street to Corporation Street) has been framed for the area bounded as follows:—

On the North.—From a point on Dharumtala Street at the north-eastern corner of premises No. 69, Dharumtala Street running eastward along the southern edge of Dharumtala Street to a point on the north-western corner of premises No. 77, Dharumtala Street at its junction with Ram Chandra Das Row.

On the East.—From this point southwards running along the eastern edge of Ram Chandra Das Row and then crossing Corporation Street to a point at its southern edge about 7 yards from the north-western corner of premises No. 56, Corporation Street.

On the South.—From this point westwards along the southern edge of Corporation Street to a point about 8 yards from the north-eastern corner of premises Nos. 47, 47-1, Corporation Street.

On the West.—From this point northward running across Corporation Street along the western boundaries of premises Nos. 101 and 101-8, Corporation Street and then westward along a portion of the southern and then northwards along the western and then eastward along a portion of the northern boundary of premises No. 48, Indian Mirror Street and then southward along the western boundaries of premises Nos. 48-1 and 50, Indian Mirror Street and then across Indian Mirror Street to the south-western corner of premises No. 67, Dharumtala Street, then running north-eastwards along the northern edge of Indian Mirror Street to the south-eastern corner of premises No. 69, Dharumtala Street, and then northward along the eastern boundary of 69, Dharumtala Street to the point whence at first started.

Particulars of the scheme, a map of the area comprised in the scheme and a statement of the land which it is proposed to acquire may be inspected at the offices of the Trust, 5, Clive Street, on week days between the hours of 11 A.M. and 4 P.M. and on Saturdays between 11 A.M. and 2 P.M.

Copies of the above documents will be delivered to the applicants on payment of the following fees:—

	Rs.	A.
Particulars of the scheme	0	4
Map of the area	1	0
Statement of land which it is proposed to acquire ...	0	4

Objections to the scheme will be received up to 1st January 1922.

Notice under section 43 of Bengal Act V of 1911.

Scheme No. VIIIB (Extension of the present proposed Park in Scheme VII) and construction of a 100 ft. road to the north of the Park joining the Circus with Darga Road.

THE Board of Trustees for the Improvement of Calcutta hereby give notice that a Street Scheme, namely, Scheme No. VIIIB (Extension of the present proposed Park in Scheme VII and construction of a 100 ft. road to the north of the park joining the Circus with Darga Road) has been framed for the area bounded as follows :—

On the North—From a point on the north-east corner of the Darga at premises No. 15, Gora Chand Road, running eastwards along the southern edge of Gora Chand Road, to the north-west corner of premises No. 22, Gora Chand Road.

On the East—From this point southwards along the western boundaries of premises No. 22, Gora Chand Road, and premises Nos. 74, 73 and 72, Tiljala Road, and then to a point on the northern boundary of premises No. 21-1, Darga Road, about 85 ft. west from its north-east corner.

On the South—From this point westwards along the southern boundary of premises No. 22, Darga Road, to a point on the eastern edge of Darga Road. From this point north-westwards along the eastern edge of Darga Road to a point opposite Kasaipara Lane. Thence running westwards across Darga Road and along the northern edge of Kasaipara Lane to the south-eastern corner of premises No. 8, Kasaipara Lane.

On the West—From this point northwards along the eastern boundary of No. 8, Kasaipara Lane, and thence westwards along a portion of its northern boundary to a point on the south-west corner of premises No. 5-2, Gora Chand Lane. Thence along the southern and eastern boundaries of the same premises to a point on its north-east corner. From this point northwards along the western edge of Gora Chand Lane to a point on it about 38 ft. north from the south-east corner of premises No. 19, Gora Chand Lane. Thence eastwards across Gora Chand Lane and along the southern boundary of premises No. 7-1, Gora Chand Lane, and southern and eastern boundaries of premises No. 10, Gora Chand Lane, to its north-east corner. From this point across and along the portion of a drain to a point on the south-east corner of premises No. 16, Gora Chand Road. Thence running northwards along the eastern boundaries of premises Nos. 16, 14, 15, Gora Chand Road, to the starting point.

Particulars of the Scheme, a map of the area comprised in the Scheme and a statement of the land which it is proposed to acquire may be inspected at the office of the Trust, 5, Olive Street, on week days between the hours of 11 A.M. and 4 P.M., and on Saturdays between 11 A.M. and 2 P.M.

Copies of the above documents will be delivered to the applicants on payment of the following fees:—

J. C. ROY,

for Director of Agriculture, Bengal.

Dacca, the 6th October 1921.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 8th October 1921.

Summary.—During the week seasonable rain fell almost throughout the province. Preparatory tillage for spring crops and sowing of pulses continue. Weeding of winter paddy is progressing favourably in the western districts. Its prospects are expected to be good if the present state of weather continues during this month. The average price of common rice for the province has fallen by about 1·19 per cent. as compared with that of the previous week.

Serial No.	District and subdivision.	Rain fall.	PRICE OF COMMON RICE IN SEERIS PER RUPEE.		Character of the weather, condition of crops, etc.
			This week.	Previous week.

RESOLUTION ON THE REPORT ON POLICE ADMINISTRATION IN THE BENGAL PRESIDENCY FOR THE YEAR 1920.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

Police.

CALCUTTA, THE 14TH OCTOBER 1921.

RESOLUTION—No. 3336Pl.

READ—

The Report on Police Administration in the Bengal Presidency for the year 1920.

READ ALSO—

The report for the year 1919 and the resolution of Government recorded thereon.

1. Mr. R. B. Hyde held charge of the department as Inspector-General of Police till the 3rd June 1920, when he proceeded on combined leave. Mr. R. H. S. Hutchinson officiated for him during the remainder of the year.
2. The Military Police Battalion now known as the Eastern Frontier Rifles (Bengal Battalion), though without its full complement of military officers, was maintained in a state of efficiency and good discipline. The

Indian officers and men who served in the Indian Expeditionary Force returned during the year, and the Battalion is to be congratulated on this fine record of courage and endurance given to them by the Commanding Officer under whom they served.

3. The sanctioned strength of the subordinate police rose from 23,051 to 23,852. The increase is due chiefly to the creation of additional appointments of sub-inspectors required to replace probationers under practical training in districts, and of constables for strengthening the reserve for leave and sickness. The enlistment of constables was not satisfactory during the greater part of the year, but recruits presented themselves in large numbers after the revised rates of pay were announced. It is noticeable that Bengali recruits formed 65·1 per cent. of the total number, the highest proportion so far recorded.

4. The most important feature of the year's administration was the question of improving the conditions of service, especially in the subordinate ranks, among some of whom dissatisfaction was bringing in its train a certain deterioration of morale. It was recognised that some improvement in pay and prospects was imperatively necessary, while financial conditions rendered an adequate solution of the problem one of considerable difficulty. After very careful consideration new terms, entailing very heavy expenditure, were finally sanctioned for the subordinate ranks, involving a substantial increase of pay and grant of other concessions, and constituting what were considered to be fair and reasonable prospects. The pay of inspectors was revised after the year ended. It cannot, however, be said that the dissatisfaction has entirely disappeared. There is a feeling among the subordinate officers that their emoluments are low as compared with those of other services of similar status, and they have made representations to Government to this effect. The question is now receiving further examination, but the financial difficulty remains in an acute form.

5. The health of the force showed no improvement, malarial fever and influenza causing much illness; in some districts the daily average number of absentees owing to sickness was very high. Better results may be looked for now that the increase in the leave reserve will give some relief from the strain of continuous duty, and the higher rates of pay will enable the lower ranks to provide themselves with more and better food. But there remain other factors adversely affecting the health of the force, e.g., the inadequate supply of cots and mosquito-nets and the defective buildings in which many officers and men are housed, the improvement of which is a slow process, retarded by financial considerations.

6. A very satisfactory feature of the year's work is the increase in the number of officers and men who did specially good work for which they received rewards. On the other hand, discontent with the conditions of service unfortunately resulted in some instances in a decline from the necessary standard of discipline, and a consequent increase in the number of departmental punishments inflicted. The number of complaints instituted by private persons against the police showed a decrease, the number of officers and men who were found guilty of offences on such complaints being 128 out of a total force of more than 23,000. Of 49 civil suits instituted against the police, 24 were dismissed, one was decreed, and the others were pending at the close of the year.

7. Varying reports have been received from districts on the work of the rural police, and the complaints of the inadequacy of the chaukidars' pay are general and well founded. In many districts the resignations on this account were numerous, while difficulty has been found in filling vacancies. The maximum pay is fixed by the Chaukidari Act in areas where that Act is still in force, and it is only where union boards have been established that a higher rate is permissible; the desirability of amending the Chaukidari Act in this respect is under the consideration of Government. Instances of specially good work have been brought to notice, and it is satisfactory that the percentage of chaukidars rewarded rose from 16·3 to 19·5. The number punished, however, also increased, though in several districts undue severity appears to have been shown.

8. The expenditure of the department increased from rupees 1 crore 15 lakhs to rupees 1 crore 31 lakhs in round figures. The increase is mainly due to the enhanced rates of pay, to the grant of *ad interim* allowances to ministerial officers, and for travelling and conveyance allowances. The expenditure on the Criminal Investigation Department was considerably reduced. Progress in building construction was slower, the amount spent on buildings having fallen from Rs. 22 lakhs in the previous year to Rs. 17 lakhs. The report draws special attention to the dilapidated and insanitary condition of many police station buildings and staff quarters, and to the effect caused thereby on the health and discipline of the force. The adequate housing of the force has been for many years one of the urgent needs of the department, but the increased cost of building materials has stood in the way of any substantial progress in recent years. In the present financial situation, the Governor in Council fears that funds are not likely to be available in sufficient measure towards provision for improved buildings.

9. The total volume of serious crime was less than in the previous year, the decrease being most marked in offences against property, viz., dacoity, robbery, etc., and attributable in a large measure to the preventive measures which continue to be taken. Good work was done by the C. I. D. in dealing with organized and professional crime, of which the Inspector-General gives various interesting examples, and valuable assistance was given by it to the district police in combating outbreaks of dacoity. It is satisfactory to note that the co-operation of the public with the police in the prevention and detection of crime continued to manifest itself in certain areas, specially in Hooghly, where defence parties achieved considerable success. The system of station patrol boats for the prevention of crime in riverine areas has had good results, and was made permanent during the year. The problem of dealing with the habitual criminal has again been examined by the Inspector-General who favours the method of "preventive detection." The opinion of the Jails Committee on the question has now been received and is under consideration. The province was free from revolutionary outrages; no political significance is attached to two dacoities which are believed to have been committed by men of the *bhadralok* class. All detenus under the Defence of India Rule and state prisoners who were under restraint at the end of 1919, were released during the year; seven convicts in so-called political cases, whose conduct was satisfactory, were also released before the expiry of their sentences.

10. The increase in the burden of extra-departmental duties thrown upon the police is to be regretted, though the Legislative Council elections and the census were special incidents entailing additional work.

11. The Governor in Council desires to thank Messrs. Hyde and Hutchinson for maintaining a high standard of administration during a year when adverse economic conditions and industrial unrest added to the difficulties of police work. He has also read with pleasure the list of officers commended for good work by the Inspector-General.

The report is an interesting one, particularly in the definite examples given of good work done. Owing to financial stringency the Department is at present severely handicapped, and the record of achievement is for that reason the more satisfactory.

ORDERED—That copies of the Resolution be forwarded to the Inspector-General of Police, the Commissioner of Police, Calcutta, and all Commissioners of Divisions for information.

ORDERED—Also that the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council.

J. DONALD,

Chief Secretary
to the Government of Bengal (offg.).

**APPOINTMENT OF COMMITTEE TO CONSIDER AND REPORT
WHETHER THE POSTS OF DIVISIONAL COMMISSIONERS
MAY BE ABOLISHED.**

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue.

DARJEELING, THE 7TH OCTOBER 1921.

RESOLUTION—No. 222T.—R.

In pursuance of a resolution which was moved in the Bengal Legislative Council and accepted by Government on 30th August 1921, the Government of Bengal are pleased to appoint the following committee to consider and report as to whether the posts of Divisional Commissioners may be abolished with due regard to efficiency; and if their opinion be in the affirmative, to report as to the steps to be taken to give effect to such opinion:—

The Hon'ble Sir Bijay Chand Mahtab, K.C.S.I.,
K.C.I.E., I.O.M., Maharajahdiraja Bahadur of
Burdwan, Member in charge of the Revenue
Department *President.*

F. C. French, Esq., C.S.I., I.C.S., Member in charge of the Board of Revenue, Bengal.	} <i>Members.</i>
D. H. Lees, Esq., I.C.S., Commissioner of the Rajshahi Division.	
J. Donald, Esq., C.I.E., I.C.S., Chief Secretary to the Government of Bengal.	
Raja Manilall Singh Roy, M.L.C.	
Babu Surendra Nath Mallik, M.L.C.	
Saiyid Nasim Ali, Esq., M.L.C.	
Babu Nibaran Chandra Das Gupta, M.L.C.	

W. S. Hopkyns, Esq., O.B.E., I.C.S., Secretary to
the Government of Bengal, Revenue Depart-
ment *Secretary.*

ORDER.—Ordered that a copy of the Resolution be forwarded to all
Members of the Committee.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

W. S. HOPKYNs,

Secretary to the Government of Bengal (offg.).

**RESOLUTION ON THE REPORTS ON INLAND EMIGRATION
UNDER THE ASSAM LABOUR AND EMIGRATION ACT, 1901
(VI OF 1901) FOR THE YEAR ENDING THE 30TH JUNE
1921.**

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Emigration.

DARJEELING, THE 4TH OCTOBER 1921.

RESOLUTION—No. 213T.—R.

READ—

The Reports on Inland Emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901) for the year ending the 30th June 1921, submitted by the Superintendent of Emigration, Calcutta, and the District and Assistant Superintendents of Emigration.

THE most remarkable feature of the year under review in connection with inland emigration was the decrease in the number of recruits despatched to the labour districts.

2. Recruiting operations in Bengal were conducted as usual in the districts of Bankura, Birbhum, Burdwan and Midnapore, but the number of garden sardars employed during the year was only 248 as against 700 in the preceding year. All of them worked under the supervision of licensed local agents. The number of local agents' licenses issued was 12 as against 13 in 1919-20. The total number of emigrants recruited in Bengal was 86 as against 600 in the previous year. The largest number of recruits was from Midnapore, viz., 68. Conditions of recruitment in other provinces appear to have been similar, for the total number of emigrants from Bengal and other provinces embarking at Goalundo was 13,051 as compared with 50,989 in the preceding year. The decrease was mainly due to the depression in the tea industry.

3. No criminal case connected with emigration was reported during the year.

4. Rest-houses for emigrants were duly inspected and generally kept in proper sanitary condition. These rest-houses, which used to be maintained by different forwarding agents, have been taken over by the Tea Districts Labour Supply Association since the 31st August 1920.

5. Arrangements for river transport were satisfactory. Five deaths, of which two were due to cholera, were reported to have occurred among emigrants at Naihati. Of the 13,061 emigrants who arrived at Goalundo, nine died at the Goalundo hospital; two of these deaths were due to cholera. There was no death during the steamer journey to Chandpur among the 3,710 emigrants who embarked for the Surma Valley districts, but of the 9,341 emigrants who embarked for the Brahmaputra Valley, three died during the voyage, one of the deaths being due to cholera.

6. In connection with the transport of labour to Assam receipts amounted to Rs. 1,751 against Rs. 1,750 in the preceding year, while the expenditure fell from Rs. 22,720 to Rs. 22,373.

7. Major C. A. Gourlay, I.M.S., held the office of Superintendent of Emigration, Calcutta, up to the 19th February 1921, when he proceeded on leave. The thanks of the Governor in Council are due to him and to Lieutenant-Colonel Moses, who succeeded him, and also to the local officers for their assistance in the administration of the Act.

By order of the Governor in Council,

W. S. HOPKYNs,

Secretary to the Government of Bengal (offg.).

Calcutta Improvement Trust.

Notice under section 63 (5) of Bengal Act V of 1911 as amended by Bengal Act III of 1918.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 12th October 1921.

Summary.—During the week moderate to heavy rain fell in North and East Bengal; elsewhere the fall was practically nil. Preparation of fields for spring crops and their sowings are progressing. The prospects of winter rice are, so far, reported to be good except in the high land tracts of Western Bengal, where rain is required for its growth. The average price of common rice for the province has fallen by about 0.92 per cent. as compared with that of the previous week. Distress prevails in Khulna. Indoor work is being given to recipients of relief in distressed areas.

CALCUTTA, the 22nd October 1921.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 19th October 1921.

Summary.—During the week light and scattered showers fell in North and East Bengal; elsewhere there was practically no rain. Rain is urgently needed in West Bengal for winter paddy which is just about to flower. Preparatory village for spring crops is in full swing. Sowing of pulses is finished and that of other spring crops continues. The prospects of winter paddy are generally reported to be satisfactory. The average price of common rice for the province has fallen by about 1·67 per cent as compared with that of the previous week. Distress continues in Khulna. The number of persons receiving gratuitous relief amounted to 9,927.

REPORT OF THE HONORARY COMMITTEE FOR THE MANAGEMENT OF THE ZOOLOGICAL GARDEN, CALCUTTA, FOR THE YEAR 1920-21.

NOTIFICATION.

Minister in charge : The Hon'ble Nawab Saiyed Nawab Ali Chaudhuri, Khan Bahadur, C.I.E.
 No. 4096 Mis.—The 26th October 1921.—The following extracts from the Annual Administration Report of the Zoological Garden, Calcutta, for the year 1920-21, and the Government letter No. 4094, dated the 27th October 1921, acknowledging the receipt of the report are published for general information.

J. A. L. SWAN,
 Secretary to the Government of Bengal.

THE Committee have the honour to submit their report for the year ending 31st March 1921, containing, as in former years, among other items—

- (1) The Superintendent's report upon the Zoological collection.
- (2) Abstract of accounts of ordinary receipts and expenditure.
- (3) Monthly returns of visitors and gate receipts and a list of donors and their donations.

The Committee consisted of—

President :

The Hon'ble Sir C. J. Stevenson-Moore, K.C.I.E., C.V.O., I.C.S.
The Hon'ble Mr. Justice P. L. Buckland, F.Z.S., from 29th March 1921.

Vice-President :

The Hon'ble Mr. Justice P. L. Buckland, F.Z.S., till 29th March 1921.

Honorary Secretary and Treasurer :

W. K. Dods, Esq., from 7th April 1920.

Members of the Committee :

Nominated—

R. D. Mehta, Esq., C.I.E.
Dr. Nelson Annandale, B.A., D.Sc., J.M.Z.S. (resigned on 11th December 1920).
W. R. Gourlay, Esq., C.I.E., I.C.S.
H. J. McIntosh, Esq.
Nawab Sir Asif Quadr Saiyad Wasif Ali Mirza, Khan Bahadur, Mahabat Jang, Nawab Bahadur of Murshidabad, K.C.S.I., K.C.V.O.
G. Girard, Esq., I.S.O., F.R.H.S.
The Hon'ble Sir Bijay Chand Mahtab, K.C.S.I., K.C.I.E., L.O.M., Maharaja-dhiraja Bahadur of Burdwan.
Shirley Treamearne, Esq.
David Ezra, Esq.
Nawab A. F. M. Abdur Rahman, Khan Bahadur.
Lieutenant-Colonel Sir L. Rogers, K.T., C.I.E., M.D., I.M.S.
C. W. E. Cotton, Esq., C.I.E., I.C.S.
Lieutenant-Colonel E. H. Brown, I.M.S. (retired), M.D., D.P.H., F.R.C.S.E.
H. F. Yeoman, Esq.
Surendra Nath Lahia, Esq.
Dr. B. L. Chaudhuri, D.Sc.
G. C. Mandal, Esq.
Satya Charan Lahia, Esq., F.Z.S.
W. Kirkpatrick, Esq.

Ex-officio—

The Commissioners of Divisions in Bengal.
The Executive Engineer, 2nd Calcutta Division, Public Works Department.
The Sanitary Commissioner, Bengal.
The President of the Asiatic Society of Bengal.
The Director of Public Instruction, Bengal.
The Natural History Secretary of the Asiatic Society of Bengal.
The Director of Land Records, Bengal.
The Superintendent, Civil Veterinary Department, Bengal.
The Professor of Comparative Anatomy and Zoology, Medical College, Bengal.
The Superintendent of the Royal Botanic Garden, Sibpur.
The Chairman of the Calcutta Corporation.
The Principal of the Bengal Veterinary College.

Resignation—

On the 29th March 1921 the Hon'ble Sir C. J. Stevenson-Moore, K.C.I.E., C.V.O., I.C.S., resigned his appointment as President of the Committee of Management of the Garden. In accepting his resignation the Committee of Management recorded the following resolution:—

"It was unanimously agreed that an expression of the Committee's warm appreciation of his services as President should be minuted in the proceedings."

Dr. N. Annandale, B.A., D.Sc., C.M.Z.S., resigned his membership owing to his absence from Calcutta on long leave.

Appointment—

The following new members were appointed during the year:—

Dr. B. L. Chaudhuri, D.Sc.

G. C. Mandal, Esq.

Satya Charan Laha, Esq., F.Z.S.

W. Kirkpatrick, Esq.

STAFF AND ESTABLISHMENT.

Rai Bijay Krishna Basu Bahadur continued in charge of the Garden as Superintendent throughout the year and Babu Somadev Ganguli as Assistant Superintendent.

The following is a list of the superior staff of the Garden at the end of 1920-21:—

Superintendent.

Rai Bijay Krishna Basu Bahadur, C.M.Z.S.

Assistant Superintendent.

Babu Somadev Ganguli.

Store-keeper.

Babu Jugal Kishore Roy.

Overseer.

Babu Niranjan Mukherji.

Clerk.

Babu Tarak Chandra Chatterji.

Gate Clerk.

Babu Doyal Chandra Dass.

The following is a list of the menial staff of the Garden at the end of 1920-21:—

1 Saktri.	14 Gardeners.
1 Jamadar.	3 Sweepers.
8 Durwans.	1 Chaprasi.
20 Keepers.	1 Carpenter.
2 Bhutias.	2 Cartmen.
1 Cook.	1 Syce.
1 Head Gardener.	1 Seytho man.
1 Night-watch.	

In addition a number of temporary men were engaged during the year.

STRUCTURAL ALTERATIONS AND IMPROVEMENTS.

The principal alterations and improvements effected were with regard to:—

The Southern Extension.—The conflict between the reluctance of the Committee to cover this area with fences and sheds and their desire to make the most effective use of it for a display of exhibits and the relief of the enclosures in other parts of the Garden has been reconciled by

grouping animals and birds of different genera with no restrictions as to freedom of movement over the entire space. This has afforded considerable interest to observers who have had the patience and opportunity to watch the conduct of the inmates towards each other. It may be necessary to sub-divide the area at least once as inter-breeding between different species cannot be permitted, and this places a severe restriction upon the number which can be accommodated.

The substitution of a wide ditch, of a depth which prevents wading across, for fences and railings, takes advantage of the disinclination of animals to jump out of water, gives an unobstructed view to the visitor and is a form of enclosure which is rarely found in the Zoological Gardens of Europe and is entirely new to India.

Remodelling of the Murshidabad House.—The condition of the central dome and the wooden circular roof of the Murshidabad House had so deteriorated that it had become necessary to remove and rebuild them entirely on improved designs. All woodwork has been taken away and an iron frame with galvanized wire work and Rangunge tiled roof have been substituted. The floor of the interior cages has been resurfaced and made rat-proof. From a sanitary point of view also the structure is now greatly improved.

Segregation Shed.—A well-raised and airy shed, with three compartments having a common exercise paddock attached, was erected in the Begunbari for the accommodation of sick animals.

The Hermitage.—The flooring of some of the rooms had to be resurfaced, and a red polished patent stone flooring was provided. The electric installation also required renovation which has been done.

GENERAL ANNUAL REPAIRS.

The general annual repairs to the buildings of the Garden were carried out departmentally as usual and painting of fences and iron-work to a considerable extent was done during the year.

VISITORS.

It is satisfactory to report that there was a considerable increase in the number of paying visitors during the year notwithstanding prevailing economic conditions. The turnstile records indicate a total of 842,616 visitors and show an increase of 127,577 over the figures for 1919-20.

Corresponding with the increase in the number of visitors there was an increase in gate receipts of Rs. 13,321-12. The following is a comparative statement of visitors and gate receipts for the last three years:—

Year.				Visitors.	Receipts.	
					Rs.	A.
1918-19	635,497	48,490	0
1919-20	715,039	54,524	2
1920-21	842,616	67,845	14

A large number of children under four years of age, and school children in charge of their teachers were admitted free. On the days of the Fancy Fair, when no individual charge is levied, it is estimated that about 18,000 visitors entered the Garden. In addition 42,698 persons visited the Garden on free days, of which a list, with the number of visitors on each, will be found in Appendix C.

FINANCE.

The financial condition of the Garden is on the whole satisfactory in spite of the high cost of food grains. By curtailing the running expenses of the Garden in its executive department and the strictest economy in other directions, the Committee have been enabled to set aside a substantial sum, included in the item shown as expended on original construction, in order to repair and improve some of the older buildings and make other permanent improvements designed to ameliorate the conditions under which the animals are kept. These will be taken in hand whenever the cost of materials is so reduced as to bring them within the means at the disposal of the Committee.

The amounts of income and expenditure are summarised in Appendix A.

GARDEN.

The usual work in the general maintenance of the Garden and in the care of lawns, walks and roads was carried on as usual throughout the year. The Horticultural department was carefully attended to and flowering annuals were successfully exhibited at the Annual Flower Show of the Agricultural Society.

The Committee desire to express their thanks to the Corporation of Calcutta for their continued generosity in remitting the consolidated rates in respect of the Gardens.

The thanks of the Committee are also due to those ladies and gentlemen who have added to the Zoological collection by donations, a list of which is given in Appendix D. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted either because the particular species of animals was already sufficiently well represented, or owing to want of accommodation.

The Committee also desire to express their thanks to the Railway and Steamer Companies for the conveyance of animals belonging to the Garden free of charge.

P. L. BUCKLAND,
President.

W. K. DODS.
Honorary Secretary.

SUPERINTENDENT'S REPORT.

I have the honour to submit the following report on the existing condition and the progress of the Zoological collection.

The following comparative table shows how the various collection of specimens in the Garden has stood during the last 4 years—

Year.		Mammals.	Birds.	Reptiles.
1917-18	...	316	2,029	199
1918-19	...	299	1,944	171
1919-20	...	294	1,919	183
1920-21	...	328	2,033	171

ACQUISITIONS.

The high standard of the collection generally has been maintained by the addition of many interesting foreign animals and all available space is filled to its utmost capacity.

The most important purchases during the year are five zebras and 11 gayals. Other purchases for the year included—

1 Gold-leaf monkey.	1 Sumatran.
3 Purple-faced monkeys.	1 Serow.
2 Negro langurs.	24 Catbears.
4 Temminck's Tragopan pheasants.	2 Markhors.
	4 White cranes.

Among the important gifts deserving special mention were a pair of African lions and a pair of tigers presented by His Highness the Maharao Sahab of Kotah, 2 lion cubs presented by His Highness the Raj Sahab of Wankaner, one tiger presented by the late Chief of Bamra, one tiger presented by Madan Mohan Lall, Esq., one tiger cub presented by Master Suresh Singh of Udaipur, and one white-fronted goose presented by Babu Udit Narain Singh.

The following animals were received in exchange from the Zoological Society of London :—

2 Fallow deer.	1 Blue-fronted Amazon.
2 Common badgers.	1 Yellow-fronted "
2 Common foxes.	1 Orange-winged "
2 Anubis baboons.	1 Blue-crowned " comra.
1 Mandrill.	1 Golden-crowned "
1 Red and blue Macaw.	2 Mute swans.

The following animals were received in exchange from the Zoological Society of Scotland :—

1 Sea-lion.	4 Canadian geese.
2 Brown bear cubs.	2 Grey-lag geese.
2 Gannets.	1 Buzzard.
9 Mute swans.	

Captain Macdonald of SS. "Janus" brought from Australia the following animals :—

2 Nail-tailed kangaroos.	1 Short-tailed wallaby.

The 26th October 1921.

BENODE BEHARI RAY,
for Executive Engineer, Dacca Division.

ADDENDUM.

No. 819T.-L.S.G.—The 22nd October 1921.—Add the name of Sahebzada Muhammad Sultan Allam, Chairman, Tollygunj Municipality, below that of Babu Chuni Lal Banerji, Vice-Chairman, Kamarhati Municipality, in Resolution No. 3945 L.S.G., dated the 25th August 1921, constituting the Riparian water-supply committee, which was published in page 1782 of the Supplement to the *Calcutta Gazette* of the 31st August 1921.

L. S. S. O'MALLEY,
Secretary to the Government of Bengal

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, i.e., by rail, river, canal, road, and sea, of the Calcutta block* in certain selected articles during the five months, April to August, 1921, as compared with the corresponding period of 1920 and 1919. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

General Summary.

Imports.—The imports of rice, including paddy†, into Calcutta* by rail, river, canal, road, and sea (coastwise) during the five months, April to August, 1921, amounted to 6,455,000 maunds, as against 4,471,000 maunds in the corresponding period of the preceding year,—an increase of 1,984,000 maunds or 44 per cent, being chiefly due to larger imports of rice from Burma. There was a decrease of 12 per cent in the imports of coal and coke (48,576,000 maunds as against 55,270,000 maunds a year ago). The value of the imports by rail, river, road, and sea (coastwise) of Indian cotton piecegoods showed a decrease of 16 per cent, the total value amounting to Rs. 3,90 lakhs as against Rs. 4,66 lakhs in 1920. The quantity of indigo imported during the five months, April to August, 1921, decreased from 3,124 maunds last year to 644 maunds. The imports of raw jute amounted to 1,161,000 bales as against 1,732,000 bales,—a decrease of 571,000 bales or 33 per cent. The importations of gunny bags also showed a decrease to 112 million bags from 209 millions in the preceding year. The total imports of oilseeds (linseed and rape and mustard seed) decreased by 361,000 maunds, or 9 per cent, from 3,978,000 maunds to 3,617,000 maunds and those of sugar decreased by 144,000 maunds, or 34 per cent, from 425,000 maunds to 281,000 maunds. The imports of tea increased from 897,000 maunds to 917,000 maunds or by 20,000 maunds or nearly 2 per cent.

Exports.—The value of the exports of cotton piecegoods, foreign, from Calcutta* by all routes during the five months, April to August, 1921, decreased by 21 per cent from Rs. 10,28 lakhs to Rs. 8,16 lakhs. The exports of gunny bags (including the exports by sea to foreign countries) decreased from 591 million bags to 409 millions, but the shipments of gunny bags to other Indian ports increased from 19 to 24 millions in number in the period under review. The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) increased from 2,310,000 maunds to 2,551,000 maunds, or by 241,000 maunds or 10 per cent.

* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.

† One maund of paddy is equivalent to 25 seers of rice.

TABLE I

Trade of Calcutta in certain selected articles in the five months, April to August, 1921, compared with the corresponding period of 1920.

(a) The imports by sea are coastwise imports from other Indian ports only.

(b) One maund of paddy is equivalent to 75 muns of rice.

(c) Including figures of Hudge-Hudge trade.

(d) The imports by sea include imports from other Indian ports, together with imports from foreign countries.

(e) Incomplete owing to non-receipt of the return from the Assam-Bengal Railway.

13	DINAJPUR ...	Nil	6½	6½	Prospects of winter paddy are good. Fodder and water are sufficient.
	Thakurgaon	Nil	5½	5½	
	Balarghat ...	Nil	7½	7½	
14	JALPAIGURI	Nil	6	6½	Weather has facilitated preparation of fields for <i>rabi</i> crops. Prospects of winter paddy are favourable.
	Alipur ...	Nil	6	5	

(a) Not reported.

* Now.

SUPPLEMENT TO THE CALCUTTA GAZETTE, NOV. 2, 1921.

2205

Serial No.	District and subdivision.	Rainfall.	PRICE OF COMMON RICE, IN SEERs, PER RUPEE.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
15	DARJEELING	0.01	4½	4½	Rains are doing well. Fodder and water are sufficient.
	Kurseong ...	(n)	(n)	5½	
	Siliguri ...	(n)	(n)	6	
	Kalimpong...	1.08	5½	5½	
16	RANGPUR ...	Nil	6½	6	Lands are under preparation for rabi crops. Price of rice is going down. Fodder and water are sufficient. Cattle-disease is reported from Pirganj thana in Sadar subdivision.
	Nilphamari	Nil	6	5½	
	Kurigram ...	Nil	5½	5½	
	Gaibandha ...	Nil	7½	7½	
17	BOGRA ...	Nil	6½	6½	Lands are being prepared for rabi crops. Prospects of winter paddy are fair. Rain is needed for the crop.
18	PABNA ...	Nil	5½	5½	
	Sirajganj ...	Nil	6	6½	Prospects of standing crops are good. Fodder is sufficient.
19	MALDA ...	Nil	6½	6	
20	COOCH BEHAR	0.02	6½	6½	Weather cloudy. Sowing of rabi crops continues. Rain is badly needed for winter paddy and rabi crops. Fodder and water are sufficient.
21	DACCA ...	0.52	6½	6½	
	Manikganj...	(n)	(n)	7	During the week light scattered showers fell over the district. Some rain would still be beneficial to standing crops. Preparatory tillage for the spring crops is proceeding. Fodder is sufficient.
	Narayanganj	0.17	7½	7½	
	Munshiganj (a)	Nil	7½	(n)	
22	MYMENSINGH	Nil	5½	5½	
	Jamalpur ...	Nil	7	6½	Weather cloudy. Sowing of rabi crops has commenced. Prospects of standing crops are fair. Fodder and water are sufficient.
	Tangail ...	Nil	6½	6½	
	Netrakona ...	0.04	6½	6½	
	Kishorganj...	Nil	6	6	

(a) Munshiganj being very near to Dacca and Narayanganj, its rainfall statistics are not quoted. To give information regarding the northern part of the district, rainfall figures for Kapesa thana are reported here.

(n) Not reported.

Serial No.	District and subdivisions.	Rainfall.	PRICE OF COMMON RICE, IN SEERs. PER RUPEE.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
23	FARIDPUR ...	0.29	{ 7½ 6½ }	{ 6½ 6½ }	Weather cloudy. Harvesting of early, aman paddy has commenced. Prospects of standing crops are satisfactory. Fodder is sufficient.
	Goalundo ... (Rajbari).	Nil	6½	6½	
	Madaripur ...	0.06	6½	6½	
	Gopalganj(a)	Nil	8	8	
24	BAKARGANJ (BARISAL).	0.10	6½	6½	Weather at first cloudy but now seasonable. Prospects of standing crops are fair. Fodder and water are sufficient.
	Pirojpur ...	0.01	6½	6½	
	Patnakhali ...	0.39	6½	5½	
	Dakshin Shabazpur (Bhola).	0.13	6½ ² ₈	6½ ² ₈	
25	CHITTAGONG	5.08	{ 5½ 5½ }	{ 5½ 4½ }	Prospects of standing crops are fair. Fodder is sufficient. Panga salt is selling at 13½ and 10 seers per rupee at Sadar and Cox's Bazar, respectively.
	Cox's Bazar	Nil	6½	6½	
26	TIPPERA ... (COMILLA).	1.93	6	6	Weather cloudy. Aman paddy is thriving well. Prospects of standing crops are good.
	Brahmanbaria.	Nil	5½	5½	
	Chandpur ...	Nil	7½ ¹ ₁₁	7½ ¹ ₁₁	
27	NOAKHALI ...	4.02	5½	6½	Weather rainy. Prospects of standing crops are good. Fodder and water are sufficient.
	Feni ...	0.08	6½ ² ₈	6½ ² ₈	
28	CHITTAGONG HILL TRACTS.	3.81	5½	5½	Prospects of standing crops are fair. Harvesting of jhum paddy is finished. Outturn is fair. Cotton is damaged by heavy rain. Fodder is sufficient.
29	TRIPURA STATE.	1.17	6	6	Weather seasonable. Prospects of standing crops are fair. Cleaned cotton and jute are selling at Rs. 10 to 40 and Rs. 6 to 8 per maund, respectively. Cattle disease is reported from one division. Fodder and water are sufficient.

* Burma rice.

(a) The rainfall at Haridaspur which is very near to Gopalganj is shown here.

Dacca, the 29th October 1921.
